

Rating Action: Moody's confirms ACSA's Baa3 ratings with a stable outlook

Global Credit Research - 26 Mar 2018

Rating action follows the confirmation of South Africa's rating

London, 26 March 2018 -- Moody's Investors Service ("Moody's") today confirmed the Baa3 global scale long-term issuer ratings assigned to Airports Company South Africa SOC Ltd (ACSA) with a stable outlook. Concurrently, Moody's affirmed the Aa1.za national scale rating with a stable outlook. This concludes the review for downgrade initiated on 28 November 2017.

RATIONALE FOR RATING ACTION

Today's rating action on ACSA follows the confirmation of the Baa3 ratings of the Government of South Africa on 23 March 2018 with a stable outlook. For further information, please refer to the sovereign press release: https://www.moody's.com/research/--PR_381164

The confirmation of ACSA's Baa3 ratings with a stable outlook reflects the fact that ACSA's ratings are constrained by those of the Government of South Africa given that Moody's would not see ACSA rated higher than the Government of South Africa. This recognises (1) that the Government owns 74.6% of ACSA and consequently has a strong influence on the policies of ACSA, (2) the company's exposure to domestic regulatory oversight and local economic conditions due to its high percentage of domestic traffic, and (3) the company's exposure to domestic financial markets where it raises most of its debt. The confirmation of South Africa's ratings has therefore resulted in the confirmation of ACSA's ratings.

ACSA is a government related issuer and its rating reflects a view on its standalone credit quality, expressed as a baseline credit assessment (BCA) of baa3, together with potential uplift based on an assumption of support from the Government if this were ever required. Nevertheless, given the current sovereign rating level, there is no ratings uplift to the baa3 BCA applicable at this time.

The Baa3 global scale rating maps to the National Scale Rating of Aa1.za, in accordance with guidance set out in Moody's "Mapping National Scale Ratings from Global Scale Ratings" (May 2016).

RATINGS RATIONALE

ACSA's Baa3 rating recognises (1) that the Government owns 74.6% of ACSA and consequently has a strong influence on the policies of ACSA, (2) the company's exposure to domestic regulatory oversight and local economic conditions due to its high percentage of domestic traffic, and (3) the company's exposure to domestic financial markets where it raises most of its debt.

The Baa3 ratings of ACSA are supported by ACSA's (1) ownership of a network of key airport assets, with a monopolistic position in international scheduled traffic and a dominant position (more than 90%) of domestic scheduled traffic in South Africa; (2) strong and diverse service area, which includes all major conurbations in South Africa; (3) well-invested and appropriately dimensioned asset base, which benefited from large investments in the lead up to the 2010 FIFA World Cup; and (4) moderately levered financial profile and a reasonably conservative financial policy.

ACSA's ratings are, however, constrained by (1) a system of economic regulation that has proved challenging in the past; (2) ACSA's exposure to South African Airways group, which relies on financial support from the South African government; and (3) exposure to the somewhat volatile economic conditions of South Africa, including expected below-trend economic growth and relatively high financing costs.

RATIONALE FOR STABLE OUTLOOK

The stable outlook reflects Moody's view that the financial profile of the company will likely stay commensurate with that for the current rating.

WHAT COULD CHANGE THE RATING UP/DOWN

Upwards rating pressure is unlikely in the short term given that the rating is constrained by the rating of the Government of South Africa.

Any downgrade of the government of South Africa's rating will likely result in a downgrade of ACSA's ratings.

Downward pressure on the ratings could also develop if ACSA's credit metrics weakened on a sustained basis, with the Funds from operations (FFO)/Interest coverage ratio consistently below 2.5 times and the FFO/debt ratio consistently below the low teens in percentage terms.

The methodologies used in these ratings were Privately Managed Airports and Related Issuers published in September 2017, and Government-Related Issuers published in August 2017. Please see the Rating Methodologies page on www.moodys.com for a copy of these methodologies.

Moody's National Scale Credit Ratings (NSRs) are intended as relative measures of creditworthiness among debt issues and issuers within a country, enabling market participants to better differentiate relative risks. NSRs differ from Moody's global scale credit ratings in that they are not globally comparable with the full universe of Moody's rated entities, but only with NSRs for other rated debt issues and issuers within the same country. NSRs are designated by a ".nn" country modifier signifying the relevant country, as in ".za" for South Africa. For further information on Moody's approach to national scale credit ratings, please refer to Moody's Credit rating Methodology published in May 2016 entitled "Mapping National Scale Ratings from Global Scale Ratings". While NSRs have no inherent absolute meaning in terms of default risk or expected loss, a historical probability of default consistent with a given NSR can be inferred from the GSR to which it maps back at that particular point in time. For information on the historical default rates associated with different global scale rating categories over different investment horizons, please see https://www.moodys.com/researchdocumentcontentpage.aspx?docid=PBC_1113601.

REGULATORY DISCLOSURES

For ratings issued on a program, series or category/class of debt, this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the credit rating action on the support provider and in relation to each particular credit rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moodys.com.

For any affected securities or rated entities receiving direct credit support from the primary entity(ies) of this credit rating action, and whose ratings may change as a result of this credit rating action, the associated regulatory disclosures will be those of the guarantor entity. Exceptions to this approach exist for the following disclosures, if applicable to jurisdiction: Ancillary Services, Disclosure to rated entity, Disclosure from rated entity.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Please see www.moodys.com for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the ratings tab on the issuer/entity page on www.moodys.com for additional regulatory disclosures

for each credit rating.
